

APH 110/95

HYDROSTATIC VIBRATORY PLATE

THE SUPERIOR VIBRATORY PLATE COMING FROM AMMANN

The APH 110/95 is the premiere vibratory plate compactor in the Ammann lineup. At 825 kg (1830 lb), it is the heaviest plate available. Its dimensions and high compaction forces enable the APH 110/95 to equal the output of a 7 t soil compactor. The vibratory plate features the Ammann triple-shaft exciter system that enables superior compaction and climbing ability while keeping the machine easy to handle. Many other equipment such as ACE^{econ} are already built in the standard machine, making the APH 110-95 a machine for the toughest jobs.

PRODUCTIVITY
